Greenbacks is a money management programme that rewards you for making better money choices. Earn Greenbacks based on how you manage your money and get access to exclusive benefits.

Greenbacks is made up of different goals linked to your Nedbank products or accounts.

A goal is a combination of expertly tested, best-practice money choices designed to help you manage your money in the best way possible and build towards your financial future.

How does it work?

There are 4 goals and up to 5 levels. Each goal has behaviours that you must demonstrate every month. These behaviours are linked to your everyday banking.

You must perform the same behaviours every month to maintain your level and the rate at which you earn Greenbacks.

Your level will be calculated monthly and will depend on your banking behaviour.

So, if you miss the mark one month, you can try to get back on track the next month.

Level up with every goal you achieve
